📄 **User perspectives in the Design of Interactive Everyday Objects for Sustainable Behavior**

Añadir ⋮ ⌄

Fuente
WoS

Fecha publicación
03/01/2020

Nombre de la publicación
International Journal of Human-Computer Studies

Autores/as (p. o. de firma)
L Samaras, MA Sicilia, E García-Barriocanal

Identificador publicación
https://doi.org/10.1016/j.ijhcs.2019.102393

Tipo de producción
Artículo científico

Tipo de soporte
Revista

📄 **Improving the Scalability and Replicability of Embedded** `Nuevo`

Añadir ⋮ ⌄

Nombre Apellidos Investigador   Lun 22, jun. 2020

📄 **Deep Multi-Modal Object Detection and Semantic Segmentation for Autonomous Driving**

The ability to understand visual information from limited labeled data is an important aspect of machine learning. While image-level classification has been extensively studied in a semi-supervised setting, dense pixel-level classification with limited data has only drawn attention recently. In this...
